About Gorubathan

Gorubathan is a far southern corner of Kalimpong District that blended together with plains magnificently benevolent small and beautiful town. It is approximately 55 km from Siliguri. One can arrive via NH-31 through Sevok road, crossing a famous 'Coronation Bridge' and Mongpong forest road till Damdim. From Damdim, Gorubathan will come on the way to North hill to Lava in 13 km. This 13 km distance offers astounding greenery of some of the most beautiful tea gardens including Ranicheera, Sylee, Meenglas and Lower Fagu. Gorubathan is situated on the east bank of river Chel. It is a pleasing hamlet naturally decorated by lush greenery of semi-tropical forest and beautiful landscape which is astonishingly manifested by river Chel and Neora forest-river on the east. Among local people the place is also called 'Sombaray'. The name originated from its local market (*haat*) that is organized every Monday (*sombar*) of a week.

On the up-hill of Gorubathan, there are ruins of Dalim fort with its own unexplored historical background. Local people believe that the fort was built on 18th century by the king of Bhutan when Gorubathan was under the control of Bhutanese kingdom. This place offers an overwhelming view of the surrounding area, endowed with the history of the region. On the up-hill, around 6 km from Gorubathan a natural lake called Paanch Pokhari (Five Lakes) is situated at the height of 3500 ft above Ambik forest. Local people believed that Paanch Pokhari had five ponds out of which four had dried up. When there were five ponds two swans used to come and clean the ponds whenever leaves of the trees would fall and make them dirty. Local people consider it as a holy pond and celebrate a festival in Ram Navami. One historically noteworthy and another spiritually rich, both places are potentially attractive trekking destinations for the tourist.

Having a magnificent landscape and natural greenery, Gorubathan is potentially an attractive place for tourism. This place offers breathtaking views with overwhelming scenery of blending Himalayas with plains. The other famous places of Gorubathan are Sansarey Dara, Fafar Kheti, Gorubathan Taar, Sakham Forest, Jhandi Eco-Hut and many more. An amiable place, beautiful greenery of tea gardens and semi-tropical forest, and unique landscape made this place a best offbeat destination for the tourist.

Gorubathan is now blessed with a higher education institution 'Gorubathan Government College' situated at Lower Fagu in the middle of a huge greenery and an unceasing fresh air.

We believe that our institution will be able to fulfil the aspiration of the students of this area in a wider breadth.

About the College

Gorubathan Government General Degree College or commonly known as Gorubathan Government College is situated in beautiful foothill surrounded by huge greenery in lower Fagu, Gorubathan. The journey of the college began at the premise of Judhabir Higher Secondary School of Sombaray, Gorubathan since 20th July, 2015. From January 2016, all the academic and administrative work was shifted to the new building of the college at Lower Fagu. Since then the college have been running on its own premise and has successfully completed its five years of journey. In the beginning, college had 190 students pursuing honours program courses in seven (07) different subjects including literature, arts and science

along with B.A and B.Sc-Bio program courses. Gorubathan Government College is now offering eight (08) honours courses along with B.A, B.Sc-Bio general courses. Currently the college is running with twenty two (22) teaching faculties of different streams and three non-teaching permanent staffs. College will come up with new subjects and increasing faculty strength in formative years.

College building construction is almost finished and classes are already running in all three floors of the building. Within this short period of time, we have successfully set up three different well equipped laboratories each for Botany, Zoology and Chemistry. Besides these, the college is providing central library facility rich in various books with spacious reading room. Students have also been benefited by smart class facility.

Besides academic activities, our students have put forward their potential and talent in the field of extra-curricular activities. Our students have thoroughly participated and won awards and accolades in various fields of sports and co-curricular activities organised by the University and other institutions.

College has an active N.S.S unit with 100 volunteers and has been organising various camps and programmes. College also has an Electoral Literacy Club which is jointly regulated by the Election Commission of West Bengal (ECWB) and the College. It primarily focuses on educating our students by organizing and participating in various programmes about the potential power of our votes and its role in nation building. College has also applied for IGNOU study centre for distance education to reinforce the education development of this region and is hopeful to open it within few years.

Within this short period of time, the college has successfully organised two national seminars, one Workshop and one Special Lecture on:

1. National Seminar on “Variation and Prospects of Ecotourism at Darjeeling and Dooars” Sponsored by the Department of Higher Education, Government of West Bengal.
2. National Seminar on “Tribal Society and Culture” Sponsored by the Department of Higher Education, Government of West Bengal.
3. One day workshop on “National Mission on Education through information and communication technology (NMEICT)” sponsored by National Institute of Technology (NIT) Durgapur. We have lot other projects and proposals to be implemented in near future.
4. Special Lecture on “Self-medication and its implications” organized jointly by Department of Zoology and NSS Unit of the College. The Special Speaker was Dr. Barun Ranjan Sarkar, who was a former faculty of College of Medicine and Health Sciences, University of Gondar, presently a freelancer consultant to various Medical Colleges and MNCs.

My dear students and their guardians,

We are possibly in the most troublesome phase of recent history: a deadly pandemic due to the world-wide spread of COVID-19 has come to threaten the whole humankind; millions have already been greatly afflicted by this pandemic; and our universal life has come to a halt. Even after that we are now fully able to continue with the education of our students. To that end Government of West Bengal has taken full care and initiated the process of admission to 1st Semester of B. A., B. Sc., and B. Com. Honors Program and

Program Courses under CBCS for the Academic Session of 2020-2021. Our affiliating University of North Bengal has issued a Guideline asking all Colleges to start and continue with the process of admission mentioned above. I would like to inform you all that from 10th August, 2020 we are going to initiate Admission to the 1st Semester of Under Graduation in B. A. and B. Sc. Honors Program and Program Courses under CBCS for the Academic Session 2020-2021. Whole procedure of admission will be Online and, by Order of the Government of West Bengal, students will have to appear for verification of their testimonials only when classes will begin in College. Full support will be extended to the students by our College.

Our College is offering both Honors Program and Program Courses in 10 different subjects in both Arts and Sciences, at present. A team of sincerely active teachers are devoted to each and every subject. As great assistance to learning we have a well-managed library. A collection of more than 4 thousand books in the library stands unparalleled in the region. Laboratories of the Departments of Zoology, Chemistry and Botany are well-equipped.

We have also taken care of the enhancement of social character of our students. To that end, our College has opened National Service Scheme (NSS), a central sector scheme of Ministry of Youth Affairs and Sports, Government of India. We strongly believe that sports are a field where young students achieve great part of their social characters. Students of Gorubathan Government College have been doing very well in sports organized on various levels.

Finally, I must welcome you all to our college, and hope that by participating in the education system of Gorubathan Government College you will excel in all fields of life by displaying sincerity, hard work and discipline.

Library

Knowledge is a key element to have a success in intellectual literacy and critical thinking skill in this era of globalisation. One should be well equipped with knowledge and information to confront with unrestrained growth of intellectual competition. Knowledge and Information are the power to formulate a novel way to tackle with competitive global demand. To increase the novel paradigm of the knowledge and to produce the best breed of graduate, college is extensively working on shaping all requirements for the students. Central Library facilities are the prime requirement for the information and knowledge seekers. In view of knowledge and information augmentation and also to enhance the intensity of the light of knowledge, the College is designing a finest central library with good learning environment for the students. The central library has wide range of collections on science, humanities, social science and literature containing both the text and reference book. At present library have over 4000 volumes. Students can have access to books and visit reading room on all working days from 10.00 am to 5.00 pm with their library card which will be issue soon after their admission. The library is located in the ground floor of the college.

Laboratory Facilities

Scientific laboratories are indispensable part of B.Sc course. Laboratories broaden the scientific vision of young minds and make them more inquisitive about our surrounding and explore different field of science. As Gorubathan Government College offer both 'honours' and 'general' courses in Botany and Zoology along with 'General' course in chemistry, there are separate laboratories with all the necessary facilities to carry out the practical classes. We are trying our best to provide preliminary platform for tomorrow's budding scientists.

Students' Common Room

College has fully functional students' common room for girls as well for boys, with indoor sports facility like table tennis, etc. Students can avail this facility during their off period for extra-curricular activities.

Canteen Facility

College canteen is in function for almost three to four years and located in between the students' common rooms. Vendor at the canteen, provides staple meals, tea and other regular food items in a reasonable rate on every working day.

Study Tour

The study tours are of the great importance to the students. It allows them not only to have a practical out-look but also explore deep into the subject. Gorubathan Government College conducts local study tours for all the 1st year students to fulfil the requirement of environmental science compulsory course. Gorubathan is literally situated on the lap of the Himalaya and blessed with beautiful natural wealth of mind blowing landscape, evergreen forest with great floral and faunal diversity, dancing streams and fast flowing rivers with cool crystal clear water and ever pleasant weather. They provide the students ample opportunities to analyse the ecological aspects and biodiversity of the area by taking part in the field survey and interaction programme with local inhabitants of gorubathan. It also makes the future generation aware of the environmental values and helps to develop mass awareness for the conservation of biodiversity. Department of Botany and Zoology also conduct study tours for 'Honours' and 'General' students.

Anti-ragging Cell

Ragging is a curse of student life. Any act of physical or mental abuse targeted at another student, fresher or otherwise on the ground of sex, colour, race, religion, appearance, nationality, regional origin, place of birth, economic background etc. may be considered as the menace of ragging. We have a specific anti-ragging cell in our college, constantly making students aware of the evil effect of ragging. Any student, at the time of admission in Gorubathan Government College must fill up a specific anti-ragging declaration form and get it counter signed by his/her parents/guardian. It is a noble duty of all of us to step forward, as it is the high time to make our higher education sectors ragging free. Good bye ragging-rest in peace.

Women Cell (WC)

Female candidates usually faces many challenges unlike their counterpart male students and need addressing with utmost sensitiveness and often with anonymity. A Women Cell in any institution symbolizes a safety hub for the students. It is also the sign of progression and open thinking. The Women's Cell is a platform to make the students aware about women centric laws and issues. Although the Women's Cell is at its infancy, it will in the coming future endeavour to organise seminars, lectures, workshops etc. on women specific issues. Its objectives being to impart gender education not just to the students but also the society at large. Considering safety, development and to provide equal opportunity to girl students of the college, our institution had recently constituted Women Cell which presently convened by Mrs. Pemu Tshering Lepcha, Assistant Professor of Political Science and jointly convened by Mrs. Arpana Kalden, Assistant Professor of History with equal support from other male teaching staffs. The primary objective of the WC are like –

- To create social awareness about the problems of women and in particular regarding gender discrimination.
- To develop the self-confidence of Women.
- To guide about Women Welfare Laws.
- To assert the importance of spiritual, economic, social, racial and gender equality.
- To highlight the importance of health and hygiene.

Co-curricular activities

With increasing competition, 21st century is a pinnacle competitive era and demands complete package to hold competitive edge. To fulfil the paucity on overall development and

to connect the breach to self upliftment, co-curricular activities play a pivotal role for overall growth. Overall development comprises intellectual, physical, moral, sensible, cultural and social development. Co-curricular activities are important learning platform to the students for practical execution of non-academic talent in a competitive world. This platform teaches the students to handle different situation extemporarily which is useful for the quality refinement. It is a practical experience of life that grooms the students in art of living and team work and helps in character building, increase in moral value, adjustment, coordination, creativity and many more. A Co-curricular activity provides the platform to strengthen the self-confidence, habit of eagerness to learn the new horizon of other activities with self-choice and interest. It helps to build the good social environment, foster the sense of responsibility, and therefore mould the students to the best quality human being with pleasing personality-inspiration and make them people of great value.

National Service Scheme (NSS)

National Service Scheme (NSS), sponsored by the Ministry of Youth Affairs and Sports, Government of India has been in operation in Gorubathan Government College since July, 2017. Our sole aim is to motivate students to indulge in nation building activities through various events and projects which are aimed towards the benefit of people in and around Gorubathan. Activities of the College's NSS unit is expanding under the guidance and leadership of Program Officer Dr. Arun Prasad Rajak, Assistant Professor of Hindi. Advice and ideas of our faculties, has always been helpful to increase the standard of the college NSS. Just within a span of few years the college N.S.S unit especially the volunteers have done a remarkable job. The activity of the N.S.S unit has been spread from social work i.e., cleaning program to socio-economic surveys. The volunteers of the N.S.S unit have done cleaning work at Gorubathan Govt. Hospital premises, Mission Hill Hospital Campus, different school campuses of Gorubathan etc. Different social and developmental activities are done here such as NSS wall magazine, health awareness camp, environmental awareness camp, distribution of books and other articles to the poor students of the village etc. Nature study and special camps organized for the NSS volunteers has received positive feedback from the all sphere of academics. Gorubathan NSS Unit has recently been duly rewarded for its incredible track record.

Sports

College is providing an opportunity for all the students to encourage their talent in the area of sports. Our college students had participated in various sports (inter-college tournament) sponsored by Sports Board, University of North Bengal and played well. One students of college football team whose name is Saroj Thapa from B.A Part-I general has received scholarship from University Sports Board for his good performance. Our Volleyball team came up to semi final in inter-college volleyball tournament, 2016. College is insistently encouraging the students and cultivating the best environment to explore their potential in sports.
